Burnett, lots 31 and 32, block 4, Claremont subdivision, 285.

### Tax Adjustment Nears End.

The county commissioners, who have been sitting as a board of equalization and review since the first of the month,

## Furniture Storage

Even though our warehouse is far superior and our fire insurance rate 60 per cent lower than all others, whether fireproof or non-fireproof, our storage charges are no higher.

## Furniture Delivered Free to

## KEYSER FIREPROOF STORAGE

"The Finest in the West,"

Waatch 2823, 328 W. 2nd South.

Furniture Packed and Shipped at Cut Rates

will conclude its functions in that respect next Saturday. It will hold a meeting Thursday and Saturday, after which no complaints against assessments levied by the county will be received. Several hundred protestants have appeared before the board at its previous meetings and in many cases abatements have been allowed to persons more or less dependent.

## APPROPRIATE \$2500 FOR N. E. A. DECORATIONS

The city commission yesterday appropriated \$2500 to be spent in decorating the business section for the N. E. A. convention. The appropriation was made on motion of the street commissioner after Charles Tyng, chairman of the decoration committee, had explained to the commission the needs and aims of the committee.

It was at first proposed to appropriate only \$1500, but Mr. Tyng explained that it would cost all of that to install the old decorations used during previous conventions and would not leave any money for new decorations. Accordingly the additional \$1000 was provided.

It is planned to spend the money in dressing fifteen blocks in the business district by stringing electric lights over the streets and draping the trolley poles on either curb with bunting and streamers.

## URGE ADDITIONAL PAY FOR LABORERS

Another communication from the Salt Lake Federation of Labor was received by the city commission yesterday urging favorable consideration for the petitions of city employees seeking increases in salary. The occasion of the latest communication is the petition presented by the employees of the street department asking a 55-cent increase for day laborers and a 50-cent increase for teamsters. The federation asks that the increase be granted without delay. Also it reminds the commission of a previous communication relating to the petition of city firemen for increases, and asks to be informed as to what the commission intends doing in the matter.

## CITIZENS PETITION FOR MORE PAVING

A delegation of citizens headed by E. M. Ashton and Le Grand Young appeared before the city commission yesterday to ask for paving extensions in the southeastern part of the city. They asked that the city pave Princeton avenue from Ninth East to Eleventh East street, Eleventh East north to Yale avenue and

Yale avenue to Fifteenth East street. The width of the paving is to be thirty feet and the petitioners gave assurance that the city would be required to pay for only one and a half intersections, the remainder of the expense being borne by property owners.

The request was taken under advisement and the engineer will be asked to give an estimate on the cost of the city's portion.

## Land Board to Meet.

The state land board will meet this morning to take final action on the application of the Buckhorn Irrigation company's application to make two separate projects out of its reclamation scheme in Emery county. The project is the largest ever considered by the state and if it is passed upon favorably it will mean the reclamation of several hundred thousand acres.

Is it a gracious mirror that greets you, My Lady?

or do you see reflected therein the telltale marks of Father Time and the form of wrinkles, crow's feet, or a pallid complexion?
